

Customer Journey Map

Date	01 OCTOBER 2026
Team ID	6ab7f7bfd083b0e2ee72b13b
Project Name	LegalEase: AI-Powered Legal Document Generator
Maximum Marks	2 Marks

Customer Journey Map

Phase of Journey	Stage 1 Identify Need	Stage 2 Generate Document	Stage 3 Review & Download
Actions <i>What does the customer do?</i>	- Identifies the legal document required - Selects the document type - Enters parties involved - Provides terms and effective date	Clicks Generate Document - Submits the entered information - Waits for AI to generate the document	Views the generated document - Checks clauses and details - Edits the document if necessary - Selects the required file format - Downloads the completed document - Saves it for future use
Touchpoint <i>What part of the service do they interact with?</i>	LegalEase interface - Document type field - Parties field - Terms & Conditions field - Effective Date field	- Generate Document button - FastAPI backend - Gemini AI service	Document preview - Editable text area - Edit Document option

			• Download as TXT • Download as DOCX • Download as PDF
Customer Thought <i>What is the customer thinking?</i>	• “What type of document do I need?” • “What information should I provide?” • “Have I entered the details correctly?”	• “Will the AI generate the document correctly?” • “Will it include all the required clauses?”	• Does this document meet my requirements?” • “Are the details and clauses correct?” • “Do I need to make any changes?” • “Which format should I choose?” • “Is the document ready to use?” • “Can I easily save and share it?”

Customer Feeling <i>What is the customer feeling?</i>	• Curious • Slightly uncertain • Hopeful	• Interested in the AI generated result. • Relieved when generation works. • Reassured by the fallback template option.	• More confident after reviewing the document. • Satisfied with the editing and preview features. • Convenient and prepared to download the final document.
Process Ownership <i>Who is in the lead on this?</i>	• LegalEase UI / Frontend • User • Document selection module	• LegalEase backend • Gemini AI integration • Fallback template module	• Document editor • Preview/export module • User

Opportunities <i>How can we improve this stage?</i>	• Provide clear descriptions for each document type. • Use simple labels and guided fields. • Add examples/placeholders for user inputs.	• Improve prompts for more relevant documents. • Show a clear generation status. • Display a friendly message when fallback templates are used.	• Add stronger editing tools. • Provide document summary/highlight important clauses. • Offer more export formats and a final review checklist
