

Demonstration of Proposed Features

Date	15 March 2026
Team ID	6ab7f7bfd083b0e2ee72b13b
Project Name	LegalEase: AI-Powered Legal Document Generator
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Interface & Input Collection	Provides a user-friendly interface for users to select their legal-document requirement and enter the necessary information.	Implemented	Yes	Demonstrated through the LegalEase user interface.
2	AI-Powered Legal Document Generation	Generates legal documents based on the user's requirements and the information provided through the system.	Implemented	Yes	Core feature demonstrated during the project demo.
3	Legal Document Review	Allows users to review the generated legal document before finalizing the output.	Implemented	Yes	Generated document can be reviewed for correctness and completeness.
4	Document Download	Enables users to download the generated legal document for further use.	Implemented	Yes	Download functionality demonstrated as part of the user workflow.

5	Backend & API Integration	Processes user requests through the backend and connects the frontend with the document-generation functionality.	Implemented	Yes	Backend processing and system integration demonstrated.
6	Future Legal Services & Advanced AI Features	Provides scope for expanding the platform with additional legal-document types, advanced AI assistance, and other legal services.	Partial	No	Planned as a future enhancement rather than a fully implemented current feature.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	5
Total Features Demonstrated	5
Overall Implementation Rate (%)	83.33%
